Professional Summary

Full-Stack Developer specializing in Next.js, Node.js, and MongoDB. Built and deployed full-stack applications with REST APIs, JWT authentication, database design, and AI integration, working across both frontend and backend.

Education

Bachelor of Computer Applications (BCA)

2023 – 2026

IPEM College, Ghaziabad, Uttar Pradesh

Technical Skills

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Mongoose

Databases: PostgreSQL, MongoDB, Redis

Tools & Libraries: React Query, Zustand, Cloudinary, Git, GitHub, GitHub Copilot, Kiro

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), REST API Design, JWT Authentication, RBAC

Projects

Furniture E-Commerce Platform

2025

Technologies: Next.js, Node.js, MongoDB, Razorpay, Redis

[furniture.online](#)

- Designed and developed 15+ REST APIs supporting product catalog, cart management, order processing, and JWT-based authentication workflows.
- Built a custom AI chatbot using Grok API with a fully self-built chat interface and real-time message flow.
- Reduced DB load with Redis caching to improve application response times.
- Designed scalable MongoDB data models and relationships across users, products, carts, and orders.

Multi-Role Admin & Seller Platform

2025

Technologies: Next.js, Node.js, MongoDB, Zustand

[v-furniture-platform.vercel.app](#)

- Developed a role-based platform with separate admin and seller dashboards, permissions, and protected routes.
- Enforced JWT-based RBAC on the backend with frontend redirects for unauthorized access.
- Centralized auth state with Zustand for authentication and role-based access control.
- Restricted data access via role-based authorization rules to enforce secure access and data isolation between admin and seller accounts.

Achievements

- Secured 1st place in a college coding contest at IPEM College.
